Everyone's quilt top will be different sizes depending if you added sashing (1 5/8") or not, made a mini quilt, table runner? I rough cut my border 5 1/4" wide, border is completed using green bias cut vine, easy applique flowers and leaves. I used a 9mm (3/8") bias tape maker but rick rack or ready-made bias would work. If you make your own, cut fabric 7/8" wide, dampen with spray starch and pull through bias tape maker while pressing with hot iron. Pin vine to quilt top, add flowers, press in place when you're happy with the layout. Yippee, we're almost finished!
